Dear Tom,

Effective Leadership in Growing Companies

You work hard, you've invested in growth and yet you still feel like there's opportunity to elevate your company's performance. What's missing? How can you amplify your game? How prepared is your team for accelerated growth?

Below are 6 questions to help you assess company health, alignment, and preparedness for scaling.

1. Do you have a clearly written & communicated CORE PURPOSE and CORE VALUES which are shared by everyone?
2. Do you have the right people in the right seats?
3. Can each member of your team state your strategy in one phrase or sentence?
4. Does your whole team know your 1, 3 to 5 & 10-year targets?
5. Do all team members have KPIs that are tracked weekly, quarterly & annually?
6. Do you have a communication rhythm for daily, weekly, monthly, quarterly, and annual meetings?

In this informative session, Michael Langhout, Certified Business Growth Coach and Executive Coach will dive into these questions, and others, as he shares lessons from 'Scaling UP', How a Few Companies Make It, and Why the Rest Don't', by Verne Harnish, noted author, international speaker, and CEO of Gazelles Coaches International.

Attendees will receive some practical tools and techniques to help grow an industry dominating business, and all will receive a One-Page Strategic Plan and Rockefeller Habits Execution Checklist, which more than 40,000 firms around the globe have used to scale their companies successfully.

Raffle. Attendees can place a business card in the bowl for an opportunity to win a copy of Scaling UP, plus, for those companies with 20 or more employees, a complimentary 1.5 hour coaching session.
